Vol. XV.

MARSHALL, SALINE COUNTY, MISSOURI DECEMBER 14, 1906.

No. 47

NEWTON & LEONARD, Abstracters, Real Estate, Loan and Insurance Agents

Southern Texas.

The Secretary of Agriculture, James Wilson, member of President Roosevelt's cabinet, says of this great country: "The coast country is immense. That expresses it in a word. It is simply immense. Within an hour's ride you have thousands of acres of the finest land in the world; land that will raise anything—unsettled, unused, at \$15 per acre. I have never encountered such a condition anywhere else. I think that it is one of the finest countries in the world. If I were a young man I would pack my grip and go to Texas. The conditions and prospects are such that I couldn't afford to remain away."

We invite you to join our excursion on December 18th, and with many of your friends from Saline and adjoining counties see with your own eyes this beautiful, healthful and magnificent farming country, where the climate, the deep rich soil, the annual rainfall and product of the land truly make it the farmers' paradise.

Railroad rates to any point in Texas \$20 for the round trip.

Write or come to see us and let us talk the matter over together. It is to your interest as well as ours that you do this.

NEWTON & LEONARD.

The Marshall School Board announced Tuesday that they had decided on the block on which the "Red Store" is located as the site for the new high school building. The selection is a good one, although there will no doubt be a number of complaints, but these would occur no matter where the school would be located.

HIGH SCHOOL NOTES

We are rejoiced to learn that the school board has decided two questions in which the students of M. H. S. are very much interested:—the location of the new high school building, and the length of the Christmas holiday. Their decision concerning the latter was that we come back on Wednesday, the day after New Year's. We had hoped to have two weeks vacation but we may find some consolation in the fact that we shall get out several days earlier in the spring. Nearly everyone seems greatly pleased with the site chosen for the new high school building. The majority of the high school students live in the eastern and southern parts of town and the situation of the new building will eliminate the long distance it is necessary for the pupils to walk to the present high school building.

The students of M. H. S. especially the two highest classes are very much interested in a debate which is to take place during the assembly hour on Monday, Dec. 17th, between representatives of the Junior and Senior classes. The boys have been working hard and we are sure the contest will be a close one. The question to be discussed is Resolved: "That The Federal Government Should Own And Control Our Coal Mines."

We are indeed thankful to the Board of Education for giving us a new national flag. We were greatly in need of one, as all know who have noticed the dilapidated condition of the flag.

In the basketball game played between the M. V. C. Academy team and that of the High School last Thursday evening, the High School team won by a score of nine to seven. This shows that our boys have been practicing faithfully. This victory should incite them to further efforts.

The Junior football warriors recently challenged a team made up of the members from each of the other four classes of the High School. The challenge was accepted and the game played last Friday. The Juniors were victorious, this showing that they are a very strong class in athletics as well as other branches of the school work.

SLATER

The many friends of Dr. Robt. H. Wilson of Gilliam are very sorry to hear of his death. The Dr. lived to the good ripe age of 77 years. He was favorably and well known, considered a successful practitioner of medicine. He has been quite a familiar figure in and around Gilliam for a great many years, was at one time a partner in the practice of medicine with his nephew, Dr. D. W. Reece of this place and Dr. Alexander, who died a few years ago in Cal. The Dr. was never married, he traveled through life alone. We have concluded that a life of this kind is anything but pleasant and agreeable.

Mr. and Mrs. Vanarsdale have moved from this place to Mexico Mo. He was engaged while here in night work at the Roundhouse. He now is foreman at the Roundhouse in Mexico, much more suitable and agreeable position, Conductor Diefenbacher and wife are occupying the house thus made vacant by the former party moving out.

Mrs. Benson, who has been spending some time in K. C. has recently come back to her home in North Slater, where she will likely remain permanently. Her many friends are delighted to have her back in their midst again. There are many inducements to cause people to come back to Slater after once leaving.

The many friends and relatives of Mrs. J. W. Page of northwest Slater are very sorry to hear of her painful illness. She is afflicted with a stroke of paralysis on right side. She seems to be some better at this time, slowly improving. Mrs. Page is some what advanced in years, consequently her chance for improvement is much more unfavorable.

Mr. Wm. Robinson is pleasantly located in his new home and Mr. Rosenthal has possession of his new home that he purchased of Mr. Robinson.

ession of his new home that he purchased of Mr. Robinson.

Elder W. T. Henson's lecture on "Strange people" last Tuesday evening at the Christian Church was well attended and attentively listened to by all present and was quite interesting and enjoyable. The Elder received many complimentary expressions. He proved to the audience present that he was no "novice" on to his job, as the boys say.
